"THE CONFIDENTIAL WEEKLY OF THE COIN MACHINES INDUSTRY"

A CONFIDENTIAL INTERCHANGE OF NEWS, VIEWS AND PREDICTIONS OF THINGS TO COME FOR THE LEADING MEMBERS OF THE COIN MACHINES INDUSTRY.

ISSUED EVERY WEEK BY FIRST CLASS MAIL. REPRODUCTION IN WHOLE OR PART FORBIDDEN WITHOUT WRITTEN PERMISSION FROM THE PUBLISHERS. COMPLETE CONTENTS COPYRIGHTED BY: THE CASH BOX, 331 FOURTH AVENUE, NEW YORK, N. Y. (All Phones: MUrray Hill 4-1725).

VOL. 4, NO. 37 JUNE 8, 1943 SERIAL NUMBER 89

"The Coin Machines Merry-Go-Round"

By Bill Gersh

POST WAR PLANNING

Practically every outstanding industry in this nation is conducting surveys with an eye to post-war plans. They are at present checking the resources and arranging for distribution factors so as to be ready to swing their industry into instant action immediately the war is over.

This same should apply to the coin machines industry. It is the hope of The Cash Box to arrange for a survey soon whereby each and every rugged individual in this field will be able to assert himself as to whatever qualifications he believes he has, as well as whatever plans he has for himself, for the post-war era.

To each and everyone of the men engaged in this business The Cash Box hopes to present a confidential sheet which will give the opportunity of stating just how much new equipment will prove necessary. At the same time these men will also be given the opportunity of advising whether they should like to enter into the distributing and jobbing or even manufacturing picture when the war is over and what they believe their qualifications are for such a step.

By setting up a survey of this kind at this time, this industry will be just as well prepared as any other to enter into action the moment the war is won. It is necessary to the continued good welfare of those now engaged in this industry that all plans be arranged now and presented to those manufacturers, who will be ready to get into instant action, the moment they are allowed to return to the manufacture of coin operated equipment.

Rather than see ads appear by manufacturers in an attempt to learn how many units they can sell or how many they should build and have these manufacturers note what answers they receive to these ads prior to making any decisions regarding production and then see newcomers grab off the first equipment produced before those men who have labored to maintain a strong backbone for this industry can profit from the new machines, it would be to the advantage of all concerned to be ready to present a complete schedule of what this industry actually will require in minimum so that the manufacturers can proceed instantly with whatever they have when the war is over.

It is the hope of The Cash Box to obtain the cooperation of this industry to arrange for a survey which will be ready for presentation to the manufactories when they are ready to swing back into action. They will not only have a lucid idea of the size of the field they can immediately sell, but they will be better able to plan production far ahead. This in itself will speed all plans and get machines to market quicker than ever before with those who already have the locations first to benefit from the new equipment.

TUBES

The belief seems to be that tubes will now be easier to obtain because of WPB Order L-265. According to some of those who are active in the tube field, the claim is that radio retailers have been looking forward to the release of these 11,000,000 tubes for sometime now and that as yet very few have received these. It also seems that the tubes that will be released will be those used in the later model radios which are not exactly what this trade requires, according to these tube experts. They also report that such tubes as 2051 and 2A4G will disappear entirely.

NEW HIGH MARKS

Those who have saved their copies of The Confidential Price Lists for the past six months will be tremendously surprised, if they make even a rapid and cursory check of certain machines in demand today, to note how high prices have gone. In some cases the rise is over 400%. Consoles have been responsible for the greatest jump. Arcade equipment, too, has jumped tremendously, tho a certain few numbers continue to hold steady. Slots and One-Balls are floating away up in the stratosphere somewhere and even with these prices this equipment is extremely difficult to obtain. Prices have gone to such new high marks here that it is almost impossible to place a price gauge on the Slots and One-Balls fields anymore.

"The Coin Machines Merry-Go-Round"

Steadiest of all the fields has been the music equipment division. Prices have gone up very gradually and hold a certain point for sometime before any further rise is noticeable. In some of the later equipment in this field prices are extremely high but, for other equipment, not even a 10% rise is noticeable. Smallest gain of all was in the Pinball field. The complete average rise for the past year is just about 30%. This is low compared to the action which this field saw for some months past. The better machines command extremely high prices, compared to what was asked for them even six months ago. But older numbers increased only about 5% thereby leveling off the rise of the better machines.

Revampers find certain numbers hard to obtain. The moment the field generally discovers that a revamper seeks a certain game, prices zoom tremendously for this machine. As one revamper reports, "There were 1,400 of one number originally manufactured by us. So far we have revamped about 700 of these. We consider this a marvelous job for it seemed to us that more than half the games would have been off the market to start with. We are discontinuing this revamp for we do not believe that there are anymore of this number in existence." This does prove that the average pinball operator has forseen the advantages of the revamped games.

Thruout the entire field, new high marks have been set on all equipment. This is also true of merchandisers and service machines of all types. Tho some cigarette vendors are still obtainable at pretty reasonable prices as are certain types of candy bar vendors and certain scales and other units, the general run of the better equipment is priced today far above its original list.

WAR EFFORT

There is a belief current among some of the leaders in this industry that coinmen are not devoting themselves as much to the war effort as they should and can. "Let's get it over quick", should become the slogan of the men in this industry.

As one of these leaders pointed out this past week, "Most of the coinmen can do a lot more than they are now doing to help the war effort. I realize that most of the men are buying War Bonds, just about as many as they can, everytime they can buy them. But this is only part of what is expected of each individual in the country today. It would be most impressive if the men in this industry aligned themselves with the one purpose of helping in every possible way to finish this war rapidly.

"Just buying War Bonds is not enough. We should all do something more to help win the war. We should, if we have a few extra dollars, invest in war production. We should try to produce something each day that will help finish this war so much faster. Those of us who can should invest in a farm and help food production which is extremely important and many a small farmer would go places if some of us got back of him with a few extra dollars, whether we ever did realize anything on this investment financially, except for the fact that we were helping to win the war this way.

"Others should be willing to invest in other efforts that are just as important and just as necessary to victory. Many of us can give some time each day to some duty which will help everyone concerned. Experts among us should get into the war effort with everything they have. They will find there is many a spot for them among the organizations in their own communities. Many are already giving four and more hours each evening to working in war plants. Some men are not only driving for the Red Cross but are even donating their own cars and also the services of their mechanics and garages. Everyone of us in this industry can expect a better and brighter future if we will get back of the war effort more personally than we are in it today."

We hope that more coinmen thruout the country will put into practice the things this member proposes. It is our belief that every coinman is earnest in his desire to help in every way to finish this war as soon as is possible for each realizes, as do all the peoples thruout the world, that a greater and better future faces them when this war is won. This leader has asked us to keep his name anonymous for he feels he is speaking the sentiments of a great many others in this industry. We, too, fully believe that he speaks the thoughts of a great many. It is our hope that those who haven't as yet plunged wholeheartedly into the war effort that awaits each citizen of this glorious nation will do so now and bring so much greater glory to this - his industry.

HONORABLE MENTION

To James T. Mangan of Mills Novelty Company, Chicago, Ill., for his marvelous work in behalf of the war effort which has won the compliments of outstanding civilian and military leaders, including those of President Franklin D. Roosevelt.

To Irving C. Sommer of Modern Vending Company, Miami, Fla., for the war work that he is doing in behalf of the armed forces in his community which has gained much praise.

"The Coin Machines Merry-Go-Round"

To Paul L. Gerber and Max H. Glass of Gerber & Glass, Chicago, Ill., for the fine work they have done in Chicago for the Servicemen's Center as well as for many charitable causes.

To Patrick J. Buckley of Buckley Manufacturing Company, Chicago, Ill., for the war effort he has won great praise for from leaders in his city.

To Morrie and Eddie Ginsberg of Atlas Novelty Company, Chicago, Ill. for the leadership they established in bond purchases.

"JUKE BOX"

Numerous stories have appeared from time to time regarding the origin of the words "Juke Box". The greater majority attribute the expression to the "juke joints" in the South. This is erroneous. The "juke joint" actually obtained its name from the "Juke Box". The words "Juke Box" were used by some reporter, whose name is now buried in obscurity, due to the fact that the original, tinkling, little music box was invented by a Swiss whose name was "Juke" and this little musical box became known in time as a "Juke Box". In describing the automatic phonograph some reporter referred back to this old term, and thereby is supposed to hang the tale of the origination of the words, "Juke Box".

PARTS

Parts are becoming more and more difficult to obtain yet there are thousands of parts rusting away in basements, barns, garages, attics and storerooms. It is most necessary now (and The Cash Box has pleaded this cause many times in the past), for the men to list all parts they have on hand and use their free space, or as much space as they require, to advise the rest of the industry exactly what they have.

It is amazing to us to walk into a showroom in some city and have the proprietor take us down to his basement and show us a pile of parts for slots, consoles, pin games and other equipment stacked up as if in preparation for a bonfire. The these parts may mean nothing to this man, they may mean the difference between a lot of machines remaining on location earning a livlihood for someone, somewhere else in the country. Because these parts are of little value to this one territory does not mean they are of as little value anywhere else.

Those who need parts, too, should make use of their free space in The Cash Box, or even larger space, to let the trade know just what they require. It is always best to describe parts needed very specifically. By getting into action on this now a great many parts may yet be salvaged and a great many may learn that the parts they believe are of no value at all are worth enough to buy a lot of War Bonds.

SELLING METHODS

As merchandise grows scarcer, as labor becomes more difficult to obtain, as shipping grows slower and as dozens of other factors enter to hamper business between buyer and seller, it is high time that the industry stopped in its mad race to ever greater inflationary prices and paused for a breather to consider selling methods before too much grief and suspicion become current in this industry.

Traveling thruout the trade almost constantly it has been our sad duty to attempt to cure a great many evils which have come about because of the mad rush for machines. It would be to the future welfare and advantage of anyone now engaged in selling equipment to proceed with greater caution and with higher regard for his customers as well as for himself.

The seller should be more specific about machines advertised. If the machine is not clean, this should be admitted and priced accordingly. If the machine hasn't as yet been completely repaired and will only be repaired when an order is received this, too, should be so specified. If the game isn't as yet on the seller's floor, this especially should be told. The buyer should also be advised as to just how much time will be required for the game to be repaired, cleaned, carefully packed and just when and how it will be shipped. It would be to the advantage of the better reputation of the sellers would they play ball with each buyer by completely specifying just what will be necessary prior to each shipment.

FIRST ANNIVERSARY

Our First Anniversary (June 22) issue will be side-stitched and will be mailed in a special, First Class Mail, large sized envelope, flat. There will be 4 covers. The front cover will feature the four color ad of The Rudolph Wurlitzer Company; the back cover will also feature a four color ad by Bally Manufacturing Company; the inside front cover will feature a two color ad by Buckley Manufacturing Company and the inside back cover will feature a four color ad by Westerhaus Amusement Company.

In addition to this extremely colorful cover arrangement there will be inside pages fully printed (at only $75.00 each, size: 13⅓" high by 8" wide) which are sure to prove of great interest to all the trade. The issue itself, aside from being an important First Anniversary Issue will definitely be of outstanding historical value for it will depict the workings of the coin machines trade during World War II and will feature for the first time graphs and charts on equipment never before shown in this industry as well as many interesting articles which everyone is bound to save.

It is our hope that everyone of the men will take advantage of the importance of this First Anniversary Issue of The Cash Box by featuring for his firm the type size ad he believes would best be representative of his firm's efforts at this time.

Odd Coins

By Joe Orleck

A (1943) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

THE CASH BOX is getting ready to celebrate its 1st anniversary, and we've dedicated the June 22nd issue as the official "birthday" number. Just wait 'til you see it. It will be the talk of the industry! And don't forget to be represented with good sized ads.

BILL GERSH returned from a week's trip to Chicago, moaning about the weather, traveling hardships, accommodations - as a matter of fact everything, except business, which was encouraging.

HIRSH de la VIEZ, Hirsh Coin Mach. Co., Washington,D.C.offers a batch of Keeney Wall Boxes....CHAS. HARRIS, Cleveland Heights, O. selling arcade equipment and consoles....MEYER MARCUS, The Markepp Co., Cleveland, O. offers arcade equp.,slots and music....WILLIAM BUD PARR and FRED GAUNT, General Music Co., Los Angeles, Cal. wants music, and is selling slots....FRANK PAGE, Roanoke Vending Mach. Exch., Roanoke, Va. offers music and pins....P. H. CALLAHAN, Reliable Amusement Co., Flint, Mich. has pins for sale....GURDON BROWNE, Paramount Distributors,Beacon, N.Y. wires to make sure to run his ad.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only oneprice appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1—Means price went up.
2—Means price went down.
3—Means this machine just added to list.
4—Means prices went up and down same week.
5—Means prices remained same as in past week's issue.
6—Means no prices quoted for this machine this week.
7—Means no prices quoted for this machine for past two weeks.
8—Means no prices quoted for this machine for past three weeks.
9—Means no prices quoted for this machine for past four weeks or longer.

Dear Friends:

We celebrate the First Anniversary of The Cash Box with our next (June 22, 1943) issue It is my sincere hope that we shall number you among those who have already foreseen the historical value of this issue by receiving your page ad before 5 P.M. this Friday, June 12, 1943.

For a great many weeks we have eagerly looked forward to this issue. We hope to make it one of the most outstanding in coin machines history. We do believe that it will be an issue you will treasure in the years to come for it will most assuredly be completely indicative of the workings of this industry during World War II.

Sincerely yours,

Bill Gersh
